I.	В	asis of the repor	rt _		
1.	. With regard to the elements of the international application:*				
		the international application as originally filed.			
٠.	X	the description,	pages 1-31 and Abstract, as originally filed,		
			pages, filed with the demand,		
			pages, received on with the letter of		
	X	the claims,	pages , as originally filed,		
			pages, as amended (together with any statement) under Article 19,		
			pages, filed with the demand,		
			pages 32-37, received on 7 April 2004 with the letter of 2 April 2004		
	X	the drawings,	pages 1-4, as originally filed,		
			pages, filed with the demand,		
		,	pages, received on with the letter of		
		the sequence listi	ing part of the description:		
,			pages, as originally filed		
		•	pages, filed with the demand		
			pages, received on with the letter of		
2.	With	regard to the lang	guage, all the elements marked above were available or furnished to this Authority in the language in		
			application was filed, unless otherwise indicated under this item.		
			vailable or furnished to this Authority in the following language which is:  a translation furnished for the purposes of international search (under Rule 23.1(b)).		
	$\vdash$				
		the language of p	bublication of the international application (under Rule 48.3(b)).		
		the language of the and/or 55.3).	he translation furnished for the purposes of international preliminary examination (under Rules 55.2		
3.	With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:				
		contained in the i	international application in written form.		
	$\overline{}$	filed together wit	th the international application in computer readable form.		
<del>j</del>		furnished subseq	uently to this Authority in written form.		
		furnished subseq	uently to this Authority in computer readable form.		
		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.			
		The statement that been furnished	at the information recorded in computer readable form is identical to the written sequence listing has		
4.		The amendments	have resulted in the cancellation of:		
		the desc	ription, pages		
		the claim	ns, Nos.		
		the draw	vings, sheets/fig.		
5.			een established as if (some of) the amendments had not been made, since they have been considered to sclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**		
•			tich have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this led" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).		
**	Anv	renlacement sheet	containing such amendments must be referred to under item I and annexed to this report		

v.	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations
	and explanations supporting such statement

## NOVELTY (N) & INVENTIVE STEP (IS) Claims 1-26

The prior art document D1 discloses a method of preparing an initially cloudy aqueous solution containing magnesium bicarbonate which upon allowing to stand for greater than 6 hours produces a clear solution. However, the prior art does not appear to suggest controlling the calcium ion concentration so as to limit the precipitation of calcium salts in solution. This feature defined in the claims of the current patent application appears to substantially eliminate the formation of an initially cloudy aqueous solution.

Therefore the claims 1-26 are considered to be novel and inventive in light of the prior art document D1.
